

Get your Ham Radio License in Eureka

Classes coming up in March

Friday March 3rd 4:00 PM to 8:00 PM
Friday March 10th 4:00 PM to 8:00 PM
Friday March 17th 4:00 PM to 8:00 PM
Friday March 24th 4:00 PM to 8:00 PM
Friday March 31st 4:00 PM to 8:00 PM

Test Night is Friday March 31st.

All are welcome to test for any class

Glacier Bank Meeting Room (top floor)

Ham radio is the best emergency and safety network available and will be used locally as well as world wide in the event of any disasters, natural or man made.

Study books will be available at the first class.

You will need to register for the class to get a book by calling Don Johnson WR7DW at 406 889 5886

No class of license requires Morse code, and the technician test is just 35 questions multiple choice. You can get 9 questions wrong and still pass, and during the study you will be given all the answers up front.

You can also study on line at www.QRZ.com

The license is free for 10 years, then renew on line for another 10 years. We will have equipment on display and there will be demonstrations of various equipment. Eureka Repeater Group sponsoring the class has many local repeaters covering all of Lincoln County and into Flathead county, and much more.

Be prepared to increase your safety by having communications available in any emergency situation at any time day or night with these systems.
